

Swisspuja

14 Years of Socio-Cultural Celebration

Dear Swisspuja Members,

First of all thank you very much for coming to the Picnic on 2nd July 2017, despite the rainy weather.

We are writing this email not only to thank you, but also to deeply express our regret for the unfortunate incident of food poisoning, due to which many of our members got sick.

The food vendor who was chosen for the event was a known vendor. They have already provided catering services to Swisspuja on a number of previous occasions. In fact, a similar menu was already served at a Swisspuja event to everyone's full satisfaction and quality. We were expecting the same level of expertise including timely delivery this time as well. On our part, we put our best effort into ensuring that everything would work out well. Henceforth, it is very disappointing and hurtful for all of us that this time, our members have had to deal with this terrible experience. It is a matter that deeply affects all of us and it is something that we, the Swisspuja Committee, sincerely regret.

Thank you once again for your kind support and understanding. We hope you all are feeling better in the mean time.

Yourstruly,

Swisspuja Committee 2017
